## Principal's Pen

This is the last week of January which means that only a few weeks of our basketball season are left before we transition to our spring sports. Thanks for enduring cold weather, flu season and even snow this month and we thank the Lord for taking care of all of us. We do look forward to our spring sports which include a handful of students doing golf, girls participating in our inaugural soccer season and baseball.

In addition, many hours of committed work have already gone into our fine arts preparation and in a little over a month, many of our junior high and senior high students will be competing with other schools for our annual Georgia Association of Christian Schools fine arts competition. Thank you for your encouragement and motivation as students continue to fine tune their skills.

This Friday, don't miss our annual science fair, staged in the gym. A number of projects will be on display and parents are welcomed to come by and take a look at them with displays available for viewing times from 11 AM to 6 PM on Friday.

Have a blessed week!
